Dominion and Opposition Leaders Consulted in Effort to Present United Front at Coming Session in Geneva.

(Copyright, 1935, by the Associated Press.) LONDON, Aug. 21. - Premier Stanley Baldwin and seven of his Ministers tentatively decided late today plans to make a strong British stand at Geneva for economic sanctions against Italy in the event of war. This policy will be placed before an emergency meeting of the full Cabinet tomorrow.

Government did everything but spe-cifically ask the United States to give its full support to London's policy and by implication tried to hurry Washington into voluntarily stating its official views.

Many of them quit whe told by the Ethiopian here that they would have to pay \$200 for a visa if they wished to go into Ethiopia. The \$200 charge the consulate explained, was guarantee that the holder of the visa would not become a dependent

upon the Government in case his funds gave out. Huge quantities of firearms, mu-nitions, motor trucks and other war material destined for Ethiopia are held up by the French Governor-General here on orders from the French Government at Paris. Emperor Haile Selassie is said now to have only 10,000,000 rounds of cartridges, which would allow only 20 rounds each for an army of half a million men.

The Emperor had ordered an additional 7,000,000 rounds of ammunition from European firms, but this consignment is said to have been stopped at Antwerp on orders from the Powers. The Ethiopians capt. Kenneth B. Collings, American aviator, who fought in the American army air forces in Haiti,

Body Found on New York Road Identified as That of Michael La Capra Fight Promoter.

FEDERAL WITNESS IN KANSAS CITY INQUIRY

Accused Murdered Politician of Having Conspired in Union Station Shooting in 1933.

By the Associated Press. NEW YORK, Aug. 21,-Police identified the body of a man found shot to death on a highway near Plattekill, N. Y., Monday night as that of Michael La Capra, alias James Kansas, 38 years old, a New York City fight promoter. The identification was by fingerprints.

Police records showed La Capra had been arrested twice, once in 1927 when he was jailed with nine other men and two women in a narcotic drive, but released for lack of evidence, and again, shortly afterward, for possessing a revolver ille-gally, for which he received a susded sentence.

La Capra's body was found on the Clintondale-Highland highway, siness, and progress rear New Paltz and Plattekill. PEERLESS PARK VILLAGE INCORPORATED ON PETITION

One Reason, Spokesman Says, Is to Prevent Annexation to Adjacent Valley Park.

A new village, Peerless Park, situated across the Meramec River from Valley Park, was incorporated by the St. Louis County Court today on petition of 65 of the 70 residents. The village, with an area of about 160 acres, extends from the river south to Deterding road and about "It was three months ago when I 1250 feet on each side of Vandover road, which crosses the river at Val-

Dr. W. A. Koons, spokesman for the petitioners, said the purpose of incorporation was to obtain police protection, authorize stop signs at the hazardous intersection of Vandover road and State Highway 66 and to seek more adequate protection at the Vandover crossing of the Frisco railroad. It was said also residents sought to prevent the annexation of the area by Valley Park.

Village trustees appointed by the court were Dr. Koons, William Henderson, Harry S. Carter, Henry Zimmerman and Frank Mitchell. There are now 14 villages in the county, esides 12 towns of other classifica-

BRACKET SALES TAX SYSTEM ADOPTED

Retailers From City and State to Use Plan Suggested by Auditor Smith.

Retail merchants, meeting today at offices of the Missouri Retailers' Association in the Chamber of Commerce Building, adopted the bracket system suggested by State Auditor Smith for collection of the 1 per cent levy under the new sales tax law which becomes effective next

Representatives of the Missouri Retailers' Association, the Associated Retailers of St. Louis and the Independent Retailers' Council of Greater St. Louis attended.

Auditor Smith, charged with administration of the saies tax law, suggested the bracket system in blished regulations in an attempt to tax every sale as required by the act, since even the one-mill "milk bottle top" receipts which he is issuing would represent more than 1 per cent tax on sales or portions of

sales less than 10 cents.
Attorney-General McKittrick has said the bracket system is illegal. Auditor Smith, contending the merchants are required to collect the tax, included the bracket system in "suggestions" made in his print-ed regulation. The merchants have taken the position that the Auditor, as administrator of the law, must provide them with means of making the collection.

The favored few who inspected the bride's trousseau saw plenty of color. Her favorite color, blue, was prominent. There was one eventure of the color ning gown is sapphire velvet, one long evening wrap of rooster red horseguards' cloth and a honeymoon traveling coat designed on doublebreasted military lines, fastened with four padlocks. There was also a green velvet dress which she wore in Monday's civil ceremony.

There was more brilliance in the wedding gifts. Premier Laval's political family, the Cabinet, presented 24 silver empire plates. The diplomatic corps gave the bride a large silver dish and four smaller enes. The bride received as many as 52 lamps and there were so many tables filled with household ornaments the bride must spend hours writing notes of thanks.

barite mining in the United States Other operators and about 20 min-ers told the writer they believed the findings of the association to be substantially accurate. statistics were collected by the Missouri Relief and Reconstruction Commission, as a basis for a hypothetical living budget for a family

Following the announcement of the vote yesterday afternoon, the strikers strengthened their picket lines, and took steps to see that no dissatisfied minority voters should resume work. In their handbill, the operators named yesterday morn ing as the time for resuming work but no attempt was made to star work anywhere yesterday. The would be paid "provided normal op-erations can be resumed without interference from anyone."

Pickets Turn Back 30 Workers. The Superior Mineral Co., which has its plant near Cadet, in the vicinity of the National Pigments & Chemical Company's larger plant, was the first to make a show of re-suming operations today. About 30 employes of the Superior Co. ap peared outside the premises, but the strike pickets refused to let them

W. C. Wolf, head of the firm, ir a talk to the pickets, said he might have to appeal for National Guard protection. He was one of the signers of the handbill, and was one of the operators who made the previous appeal for troops, which Gov. Park declined to grant until a further attempt at settlement should be made.

Some of the strikers asked Wolf why no contract, insuring the permanency of the \$5 rate, had been offered to them. He replied that the operators could not give such a guarantee, "any more than a grocer can tell you what the price of flour will be next month." He added that he and the others offering the increase would have done everything possible to maintain it.

Miners Want to See Governor. Officers of the new union today sent a telegram to Gov. Park, stat ing that a peaceable vote to continue the strike had been taken that the men were now organized into one union, and that they had been unable to get the operators to confer with them. They therefore asked that he receive a committee

The same request was made last week, after the Governor had re; ceived a committee of the operators and heard their plea for militia in tervention, which he did not grant At that time, the Governor leaving to fill engagements which kept him away from his office for

three days. A circular addressed to the mer was issued by the union officers. It said that "until the union is recognized and a contract signed," no man should go back to work. "The steam shovel"—meaning that at the National Pigments Fountain Farms processing plant — "shall remain shut down, and the men shall stay in the picket lines until we win, the circular said. "We have already obtained the offer of \$1.50 increase We must stick and get the company to go down the line. We must have a union, or the company will be in a position to take back anything that may be granted."

Miners' Delegation to Call at Labor Board Office Today.

Representatives of the new Tiff Miners, Haulers and Mill Workers' Union planned to call this afternoon at the St. Louis office of the National Labor Relations Board 211 Security Building. Orval Ab rams, chairman, said in a message to the Labor Board office that the conference would be "to ascertain why corporations fail to deal with our settlement committee."

The new union yesterday made application for a charter in the Mine. Mill and Sm. lter Workers' International Union, affiliated with the American Federation of Labor. It is expected that an appeal will be made to union locals affiliated with the Central Trades for aid in

the strike.

J. A. Caselton, vice-president of the National Pigments & Chemical Co., said at the company's St. Louis office today that the company, and other operators in the Washington County tiff field, could not pay more than \$5 a ton offered in their handbill, and rejected yesterday by the strikers.

"In offering \$5 a ton," Caselton said, "we have gone farther than we have an economic right to go. The market will not bear a higher price, and it is highly probable that the price which has been offered will seriously restrict the outlet for barytes ore from Washington Coun-

Caselton commented on the fact that, though the strikers have given their number as 2600, fewer than 1300 voted yesterday, and that 522 voted to accept the \$5 offer.

Caselton said the striking miners were not employed by the operat-ors, but were "unsupervised independent contractors, who mine tiff and sell it to the operators." He said, figuring on a 30-hour working week, that a diligent miner should be able to make \$8 to \$10 a week at the \$5-a-ton rate. He said it was probably true that some miners averaged not more than \$2.50 a week at the old \$3.50-a-ton scale, but that they were not constant or diligent workers. Few tiff miners work more than 30 hours a week at that occupation, he said.

"The National Pigments & Chem ical Co. is anxious to effect a peaceable settlement," he said. "This strike has been a peaceful one, sole ly because of the attitude of the operators, who have made no of fort to exercise the legal right to operate their properties.'

The bus, although not badly damaged, was upset and all of its passengers were shaken up, nearly all receiving injuries of varying degrees. Five were taken to Cas-ualty Hospital in Washington and 15 were treated by the crew of the Glendale rescue squad.

FOUR ROBBERS GET \$20,000 AT BLAIRSTOWN (N. J.) BANK

President, Cashier, Clerk, Two De-positors Forced to Lie on Floor During Holdup. By the Associated Press.

BLAIRSTOWN, N. J., Aug. 21.— Four men today robbed the First National Bank of Blairstown of between \$20,000 and \$25,000 and some negotiable bonds. The rob-bers' car drew up in front of the bank about half an hour after it opened, and two of the four men, pistols in hand, walked into the pistois in hand, waiked into the building. Former State Senator Theodore B. Dawes, president; N. E. Craig, cashier, and Franklin Bunnell, clerk, were waiting on two

depositors.

The robbers forced employes and customers to lie on the floor and, as one covered them with a revolver, his companion looted the paying teller's cage, and then forced Craig to open the vault. The robber took all the money he could find there and, with his companion, backed out of the bank.

WAIVER REMOVED FROM COAL BILL

Accepts Borah Amendment Knocking Out Exemption for Producers Who Comply.

WASHINGTON, Aug. 21.-The Senate removed from the Guffey Coal Stabilization bill today a clause which would have exempted from the anti-trust laws bituminous producers complying with the

It was the first decision on c tents of the bill, under which NRA wage and hour standards would be required of those concerns affect-

Senators Guffey (Dem.), Penn sylvania, and Neely (Dem.) Virginia, were leading the fight for enactment. Neely accepted the mendment, which was proposed by Senator Borah. "I cannot conceive of this part of the bill adding to labor's bene-

Senate Meets Hour Early. The Senate met an hour earlier than customary to expedite its work to permit adjournment this week. After Guffey concluded, the coal bill was laid aside temporarily while the Senate voted on the neutrality resolution

Since the soft coal industry's NRA price structure broke down last winter. Guffey said, coal has been sold below cost of production, and the loss eventually will be passed on to the miner in the form of reduced wages. Operators had "fared as bad as the miner," he

"America, as an industrial nation, is dependent for its very life upon coal. This is a national problem, therefore, and one that must be accepted and settled by the nation." he continued. "Fifty years of bituminous coal

mining has proved that the indus-try cannot regulate itself, either for the good of the operator, or his employes, or for the country.' Neely Also Urges Action.

Neely said he would insist on enactment of the coal bill before adjournment to avert a "nationwide strike."

With collapse of the NRA price structure, producers and the United Mine Workers have been unable so far to come to terms on a new wage agreement. The present one expires Sept. 15. The Guffey bill would permit producers to restore NRA prices, hours and wages. The Senate voted, 51 to 20, yesterday to take up the Guffey bill.

Forty-five Democrats, four Republicans, one Farmer-Laborite and one Progressive voted for consideration of the coal bill, an administration "must" measure. Eleven Republicans and nine Democrats made up the opposition.

Leaders said that some Senators who voted for consideration probably would oppose the bill later.

BOTH PARDON AND PAROLE DENIED TO BANKER DUNLAP

Plea of Jacksonville (Ill.) Man Turned Down by Justice Department.

WASHINGTON, Aug. 21-Both a pardon and a parole have been denied to M. F. Dunlap, Jacksonville (Ill.) banker, serving a twoyear Federal sentence for irregularities, the Department of Justice announced yesterday.

A \$10,000 fine was added to the serving in the Springfield (Mo.) detention home. He began his term Aug. 8, 1934, and filed application for parole last April 7.

Officials declined to tell why Dunlap's application was rejected, although they admitted he was eligible for parole on the first anniversary of his sentence.

nittee Rules Applications to Ickes for Funds May Not Be Transferred. By the Associated Press. WASHINGTON, Aug. 21.-Work

relief oofficiaals have acted to prevent states and municipalities from further shopping back and forth between the offerings of Harry L.

The President's Advisory Committee ruled that once an application has been filed for a 45 per cent PWA donation it cannot be transferred without Ickes' consent to Hopkins' larger Works Progress Administration—where terms are easier. Coincidentally Sept. 16 was fixed as a deadline for PWA applications.

A recent incident involving Fred-erick, Md., where a dismissed WPA State Administrator advised with-drawal of the PWA application so as to get a two-thirds gift from Hopkins, precipitated the ruling. The Advisory Committee yester-day also recommended allotments totaling \$111,282,159, including \$84,-495,263 for WPA projects and \$3,-278,696 for PWA work.

To make sure that at least \$500, 000,000 of work relief funds will be accepted on non-Federal PWA pro-jects, the committee decided that if a community able to do so refused to put up the 55 per cent

necessary, no other work funds would be available. MRS. DORA PROPES DIES: HURT IN FALL ON STEPS

Salvage Ship Follows Bearings Given by Two, Searching New Area for Hours Without Results.

By GILBERT MCALLISTER.

ABOARD SALVAGE SHIP OR-PHIR, Aug. 21. — The Orphir steamed out of Courtmacsherry Bay yesterday to search the new area designated by the three old seafarers, James Hurley, William Kerby and Tim Coakley.

Hurley and Kerby stood on the bridge with Capt. Russell, Through noculars they scanned the horion for three white flags placed he night before. These marked a line of bearings taken by Kerby from Shanough Farmstead, through surveyor's telescope, to the Lusitania when it sank.

The first flag was placed where Kerby viewed the wreck, the sec-ond directly on a line with a fir tree on shore, and the third above

Captain Decides on "Fair Test." However, Capt. Russell did not share Coakley's view and remarked, "we must give them time. This is not a fair test of their theory. After all, it cannot be done in a day."

Kerby has a young brother, Pat-

rick, who lives in San Francisco. He has not heard from him in 30 years. Hurley also has relatives in the United States. Two brothers, John and Dan, live at New Haven, New York—a town on the shores of Lake Ontario. A sister, Margaret Hurley, whom he believes is married to a man named O'Leary, lives in Boston. Both Kerby and Coakley wonder if these relatives know of the part they are playing in the search for the Lusitania.

Monday the Orphir's crew spent the evening in Court MacSherry. It decided to try them.

Coakley, who also was on the bridge, stood aloof from his fellow fishermen, Hurley and Kerby. He had disputed their calculations when the flags were set out. No Plan to Remove Old Cathedral; Services Would Continue.

Luther Ely Smith, chairman of the Memorial Association planning he Jefferson Memorial river front development, said yesterday that the association has not planned to remove the Old Cathedral from its site on Walnut street, between Second and Third streets. Suggestions of such removal have been unoffi cial, he said.

He said the Old Cathedral would remain in its present location un-less and until Archbishop Glennon should think its re-location desirable. If the property, which is in the proposed memorial tract, is acquired by the Government, this will not interfere with continued use of the Cathedral for church purposes Smith said. He cited the precedents of churches in national parks including the California missions Smith said architects' plans for treatment of the ground would be expected to show off the Old Cathedral and the old Courthouse to the best advantage.

Three Organizations Indorse Pro-posed River Front Bonds. Indorsement of the proposed river

front memorial bond issue by three organizations in meetings yesterday was announced by W. C. D'Arcy, chairman of the campaign committee of the Jefferson Naional Expansion Memorial Associa-

The organizations are the Downtown Kiwanis Club, Junior Cham-ber of Commerce, and Business Circle of St. Louis. The last named organization, meeting at Mission Inn, heard an address in favor of the proposal by Oliver T. Remmers

before voting.

The Citizens' Non-Partisan Committee opposing the bond issue an-nounced today that it will hold a mass meeting Friday night at 8 o'clock at the German House, Lafayette and Jefferson avenues, at which speakers will discuss various phases of the project.

THE LONG, LONG SEARCH SENDED

At last you can get all the food value of the grain heart in white bread! through the perfection

of this exclusive process!

ACCLAIMED as the most important advance in the history of baking, the perfection of a method for restoring the wheat heart to white bread is announced today by Treasure Bakers. By this exclusive process, the full food value of the grain heart at last becomes available in white bread, without including irritating, unpalatable, non-nutritious roughage typical of whole wheat bread.

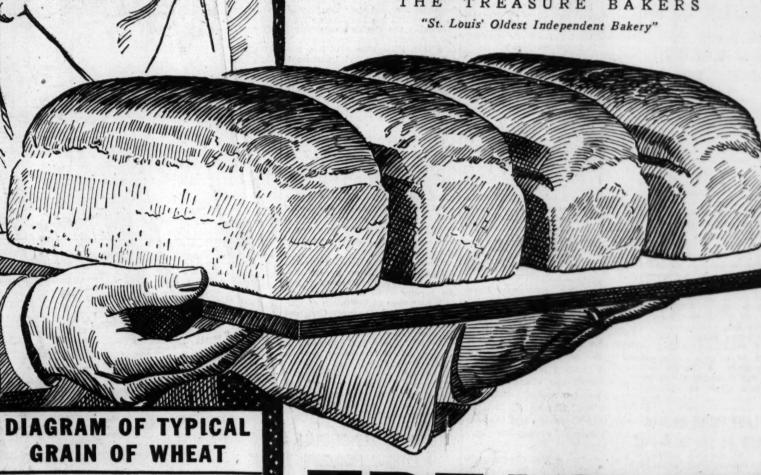

In the simple, frontier life of long ago, the farmer hauled his sack of wheat a few miles to the water mill, receiving in return a sack of fresh-ground flour that contained all the goodness of the grain.

But today, the farmer sells his wheat in bulk to mills in far-off cities. When wheat is milled into refined white flour, the heart of wheat must be removed to keep the flour fresh until it is baked into bread weeks later.

This wheat heart, as doctors and dietitians agree, holds a wealth of extra nourishment. Rich proteins to build up the body. Abundant minerals and phosphorus for strong teeth and bones, and iron for red blood. Easily digested elements for quick energy. Nature's richest food supply of Vitamin B, that steadies nerves and promotes appetite.

Now you get these extra benefits in Treasure Heart-O-Grain White Bread. For Treasure Heart-O-Grain White Bread, alone, contains the wheat heart and brings you the full food value Nature meant you should obtain from the grain heart.

GLASS PLANT STRIKERS REJECT FIRM'S OFFER

Conferences Continue Between Workers' Committee and Obear-Nester Executives.

Conferences between a committee of the striking glass workers of the Obear-Nester Glass Co. of East St. Louis and the management of the company continued today after a proposal to return to work, made Joseph K. Nester, president of company, was rejected in a vote

ken by the strikers.

Addressing a mass meeting of the 500 strikers yesterday, Nester pro-posed: that the employes appoint a committee with final authority to negotiate an agreement not subject to referendum of the strikers, who would return to work during negotiations; that the company be permitted to ship bottles already made for urgent orders. Both proposals

were rejected.

Nester, explaining the position of the company, said it was operating on a narrow margin of profit, could not pay the 10 per cent increase the strikers demanded when they walked out Monday, and contended that the scale paid was above the NRA scale for the glass industry. SIGNAL LAMP FOUND ON MAN HELD AS SPY IN FRANCE

Telescopic Camera Also Discovered After Arrest of Two Germans.

e Associated Press. METZ, France, Aug. 21.-Louis Altmeyer, 25 years old, and Jean Hussinger, 30, alleged German spies, were arrested as they crossed

the border yesterday. Police said Altmeyer had a pocket lamp capable of throwing red and green beams, enabling him to signal in code over long disances. They said a telescopic camera and a fountain pen projecting a liquid producing a deep sleep also

were found.

Police said both men confessed to espionage. The two are in jail.

175 MONKEYS ESCAPE FROM

About 175 monkeys escaped today from Frank Buck's jungle camp on Sunrise Highway near here. One of Buck's employes had entered the monkeys' stronghold to do some repairing. He placed a plank from a retaining wall to the moat which surrounds the artificial cliffs in which the animals live.

While the employe was busy, the bully of the colony dashed across the plank and the others followed Employes, suffering minor scratches and bites, succeeded in blocking the escape after 175 monkeys had crossed the plank. Two of the animals were captured.

The chattering monkeys scampered across the Long Island Rail-road tracks. About 100 railroad laborers dropped their tools and

Buck is in Singapore. Monkey experts advised that nothing be done to capture the animals for two or three days, since by then the creatures probably will have settled down in a colony. It is planned to build a fence around the monkeys when they settle.

outh Pleads Guilty at Sherid Ark.; Wife Also Is Accused.

SHERIDAN, Ark., Aug. 21.— Charged with assault with attempt to kill and robbery in the theft of the truck of two Pine Bluff men, a young man said to be James Everett Wilson, 20 years old, of St. Louis, has been sentenced to 15 years in prison. An 18-year-old girl booked as Louise Denson of Chattanooga, Tenn.,

pleaded guilty.
Prosecuting Attorney D. Millard Halbert said Wilson's 25-year-old wife would be arraigned on similar charges here as soon as she is able to leave a Little Rock hospital. She and her month-old baby were injured when Wilson wrecked a

OLD KING'S THEATER BUILDING TO BE WRECKED

ture Which Went Through Stage Drama, Vaudeville, Movie.

A permit was issued by the City Building Department today to wreck the old King's Theater, 818-20 North Kingshighway. It has been closed in recent years.

The building, a one and two-story structure, has fallen into such a state of disrepair that it is being wrecked for safety, according to the owners, the St. Louis Amuse-ment Co. Erected about 25 years ago, it was for many years one of the chief theaters in the West End. In 1920 it began operation as a motion picture and vaudeville theater exclusively. It operated as one of the St. Louis Amusement Co. chain until about seven years ago. Since then it has fallen into disthought they intended to resist his attempt to rob them. They were not seriously wounded. He pleaded

40 Flyers to Be Stationed About Casket at Los Angeles Services Tomorrow.

LOS ANGELES, Aug. 21.-A military guard of honor, composed of 40 army flyers from March Field, will be stationed around the casket of Will Rogers as thousands pay tribute to the noted actor and writer tomorrow morning. Final details of the funeral in Forest Lawn Memorial Park await the arrival of Mrs. Rogers and her three children from the East today, but Oscar Lawlor, Beverly Hills lawyer and close friend of the family, disclosed

the private service would be simple and brief. Lawlor said Mrs. Rogers had requested the service be limited to the singing of one hymn, one solo and a brief eulogy by the Rev. J. Whitcomb Brougher Sr., associate pastor of First Baptist Church of

Glendale, Cal.

Rogers' body, sent home from Alaska with that of Wiley Post, was placed in a plain bronze casket and taken to the gold room in the For-est Lawn chapel. Rogers was dressed in what he termed his "dress up suit," a blue serge, a white, soft-collar shirt, with a black bow tie. He almost always wore that attire. He once said that if a man had a blue suit and a brown casion

The body will lie in state under a canopy of pines just outside the Wee Kirk o' the Heather Church from 7 o'clock Thursday morning until noon. The private service, limited to 125 friends, will be held at 2 p. m.

Public services will be held sim ultaneously in Hollywood Bowl, huge natural ampitheater. There Conrad Nagel, actor, will read a selection and Rupert Hughes, novelist, will deliver the eulogy. Plans will be started there for a fitting public memorial.

A request that the private service be carried by wire to Hollywood Bowl and broadcast through amplifiers will be passed on by Mrs. Rogers.
Gov. Frank S. Merriam an-

nounced he would proclaim a Statewide moment of mourning during the funeral hour. At that time-2 p. m.-every movie studio will close Cherokee Indians here-Rogers was a member of their tribe-have asked permission to hold a tribal ceremony. Mrs. Rogers will decide. Inheritance taxes will take approximately one-fourth of the estimated \$2,500,000 estate left by Will Rogers, State inheritance tax officials estimate. If the estate reaches

ST. LOUIS WORK RELIEF PLANS BEING PREPARED

District WPA Director Names Engineers to Aid City in Applying for Projects.

.Federal engineers and stenographers were assigned today by Joseph A. Amend, district director of Works Progress Administration, to aid the city in preparing applications for Federal aid on projects to place at work for one year 30,000 persons from as many families now on relief rolls.

The Government has already served notice that relief must be curtailed by Nov. 1. The proposal to place at work at least one employable member of each family now on relief was made yesterday at a conference of Mayor Dickmann and Federal relief officials, who offered fullest co-operation to the city in working up projects.

It was urged by the Government representatives that haste be made and work started as soon as pos-sible so that the program will be in full swing before November, as any delay beyond that date may cause suffering to those on relief. Amend explained how the workers shall be selected and assigned

"First, the city must prepare projects and make applications for Federal aid," he said. "The applications then come to my office for preliminary inspection. If found worthy they will be submitted to the office of Matthew S. Murray, WPA administrator for Missouri, at Jefferson City. Upon approval there the applications will be sent to Washington for final sanction.

The department at Washington will allocate funds for the approved projects to our Jefferson City office, and we in St. Louis will requisition persons for employment from the Missouri State Employment Service, 1806 Washington avenue. That office will select the employ-ables from relief rolls, and our St. Louis office will assign them to jobs on the various projects as workers are required.
"The WPA scale of wages, \$55 a

month for unskilled workers, \$65 for intermediate, \$85 for skilled and \$94 for professional, will prevail. There will be no loss of wages on account of unfavorable weather or other conditions beyond the control of the workers."

Amend added the city will be

urged to have all applications in his office on or before Oct. 1, as about a month is required to have funds allocated. After the conference yesterday,

Mayor Dickmann named the following projects on which he thought about 16,000 should find employment: Repairs to public buildings and

parks, including building of additional wading and swimming pools, 6500 workers.
Resurfacing and repairing 200 miles of streets, 1200. Riprapping banks of River des

Peres. 4000. Cleaning up 20 miles of river front, from Carondelet to Baden,

no estimate. Planting of 30,000 street trees, no estimate. Smoke abatement and public

health surveys, no estimate. A sewing program for 2000 women, to make articles for in-

mates of city institutions Besides the Mayor in the conference were members of the Mayor's cabinet, Associate City Counsellor Hunter of Chicago, regional field

Edgar H. Wayman, Howard O. representative on Works Progress Administration work in Missouri Howard S. Drew, regional engineer and Murray. Murray is also working on a pro gram to find work for about 10,000

persons on St. Louis County relief rolls in the construction of sewers and on other projects, including renovation of school buildings and resurfacing of roads. GRANITE CITY GIRL, 11.

WOUNDED BY STRAY BULLET Hit as She Eats Dinner in Home; Three Boys Admit Shooting in

Neighborhood. Edith Ridings, 11-year-old daughter of Mr. and Mrs. Edward Ridings of Granite City, was wounded

in the right shoulder by a stray bullet last evening as she was eating dinner with her parents in the kitchen of their home. Three boys, two of them brothers, were held by police after they

admitted they had been shooting at tin cans with a small .22-caliber rifle in the back yard of the brother's home, about a block from the Ridings' home. Edith was taken to St. Eliza-

beth's Hospital in Granite City, where physicians said her condition was not serious.

MAN DIES OF JAW INFECTION Succumbs Few Hours After Going

to City Hospital.

Edwin Leporin, 40 years old, a shoemaker, 1308 North Twentieth street, died at City Hospital yesterday a few hours after he had gone there for treatment of an infection of the right jaw. He had a tooth extracted two weeks ago to relieve pain in the jaw.

BOSTON, Aug. 21.

E somebody asks me how it feels to be in the public eye and the way they look I know they'd just love to trade places for a while and have everybody want their autograph and everything. Sure, it's fine to have the break I've had with the Cardinals, but folks, there's a side to it that you wouldn't

like, either. It's great to make that extra money, but some days are awful tiresome. At 7 o'clock in the morning the phone rings and somebody says this is Mr. Whoosiz who just drove down from Sapulpa

and would you please shake

hands with my cousin Oscar's

boy Ludwig. That's awful early

to shake hands, even with Lud-

wig, but if you don't do it, you're called a swell head and get all kinds of balling out. You go down for breakfast and you have to sign menus and slips of paper when you'd like to have your eggs. You go to the ball park, maybe it's an exhibition game, and everybody pulls at you and steps on your feet and wants a baseball and more autographs and when you get through you're a mess.

I tell you I was kinda glad to come up with a cold in New York. I stayed in my room for two days and I was so rested from not having to shake hands with no Ludwigs that I pitch a 1-0 shutout.

The array of strong opponents on the schedule is in part responsible for this opinion. But those who know Conzelman, especially those who have watched him into a powerful threat in three years, believe that the canny coach would not knowingly send a weak eleven to be slaughtered by Southern Methodist, Illinois, Duquesne and Michigan State, with secondary battles against Missouri, Oklahoma Aggies, Creighton and St. Louis University also on the list. Jimmy is courageous but not crazy.

England and the Ethiopian Affair. To the Editor of the Post-Dispatch

ONE cannot but note with amusement the attitude of "perfidious Albion" in connection with the land grab that Italy is trying to perpetrate in Ethiopia. England, it would seem, has had forcibly brought home to her for the first time the sanctity of the League of Nations told harm that would be done to the prestige of that body if Italy persists in doing what England once did. It is quite evident that her attitude marks an international milestone for English di-

There are two suppositions which may be considered; one, that there has been Samaritanism in England, or that she feels herself so terribly menaced in Africa that she is willing to resort to force of arms to compel Italy to back down. Nor is she above using the pretext of the League to haul her chestnuts out of the fire, and in this wise use world opinnow becomes the rape of Ethiopia, with the rape of the League as the butcher's thumb.

Mr. Gadsden's Challenge, To the Editor of the Post-Dispatch

PHILIP H. GADSDEN, chairman of the Committee of Public Utility Executives, who directed the recent intensive campaign against the Government's fight on holding companies, said recently that if President Roosevelt makes an issue of the holding companies, he is going to run up against 5,000,000 stockholders in utility companies. Gadsden added: "We wish he would." The inference is that the utility executives think the 5,000,000 cratic presidential candidate.

The episode is a reminder of a similarly critical address, delivered in June, 1934, by Franz von Papen, Vice-Chancellor at the time, which was suppressed in full. Von Papen, moved by no liberal ideals, but by his concern for Germany's welfare, protested against the muzzling of the press, the persecution of minorities, Dr. Goebbels' inflammatory oratory, the stirring up of religious strife. No word, of the address was published in Germany.

It is perhaps an indication of Dr. Schacht's future to recall that Von Papen narrowly escaped death in typical counties containing upward of three-quarters the blood purge soon after-he was saved only by Hindenburg's intercession-and later was removed from Germany to the post of Minister to Austria. By virtue of his achievements in keeping the struggling German economy afloat, Dr. Schacht may not be shelved, but it is evident that the criticism has

diminished his standing in official circles. Suppression of the Schacht rebuke indicates that Germany's masters do not disapprove the individual acts, though they are officially on record as opposed and next highest (83 cents) in Wayne County to them, and as asserting that the campaigns will be (Detroit), which has approximately 640,000 voters. conducted henceforth by the state. COUNTY ELECTION COSTS.

Administration of elections to pay political debts has been added to the reasons for overhauling the county system of local government by Prof. James K. Pollock of the Political Science Department at the University of Michigan. Reporting on a study of of the residents of Michigan, Dr. Pollock announces that election costs per registered voter vary from 32 cents to 92 cents, according to the county.

The location of the county has nothing to do with the cost, this political scientist concludes; neither has the county's size, general character or the nature of work in which its population is employed. The cost per registered voter was highest in Roscommon County, with only 1745 registered voters,

As time passes, taxpayers are certain to become increasingly conscious of the huge savings which can be effected through the application of efficient methods to election procedure-by permanent registration, by breaking the grip of the spoils system this fact, for the leaders have frequently assailed the on election administration and by suitable election consolidations. In the field of elections, as Prof. Pollock's investigation shows, is further cause why the county should be subjected to closest scrutiny.

TODAY AND TOMORROW

Basic Recovery

HERE is no time left to consider the various bills which are to be railroaded through Congress this week. The bills are to be made into laws and then, as they are administered and interpreted judicially, the country will come to understand them. But, for the time being, there is no opportunity to analyze and to judge them.

The ordinary man can reach an opinion about the procedure, about the lack of adequate hearings, the perfunctory debate, the attempt to deal with a dozen big subjects a once, the hurry and the haphazardness. But about the substance, the real effect, the practical consequences of this great gush of new

laws, it is not possible to have clear ideas. As a matter of fact, however, the manner in which these laws are being enacted is more important than the substance of any of the bills. The recovery, not so much as it is measured by the statistics, but as it appears in the returning self-reliance of the people, may be counted on now to deal with ill-considered laws, to make them workable, to force amendments or to bring about their repeal. For the essence of recovery in America is the revival of private and of local initiative. Once that revival has occurred, the fundamental balance of the American constitutional system is restored. Private and local energy is there to check centralized

and official actions. It is this check, applied by the local communities and by individuals who have confidence in themselves, which is now being applied. It accounts for the growing impatience with emergency government, with startling announcements and summary action. It is the best evidence we have that the paralysis of the depression, the prostration of the crisis, is over. It is a healthy, an inspiriting, sign. For a beaten, frightened, disorganized, hysterical people cries out for demigods to save it. A free and self-reliant people has no doubt that it can

save itself. The critical point in Mr. Roosevelt's career will be reached when Congress adjourns. For then, with all his program enacted into law, the country will be waiting to learn what course he proposes to take. Does he look on the adjournment of Congress as the end of the period of emergency, or does he opose to continue, as long as he is in the White House, to act as if the crisis of 1933 were still with us?

If he recognizes that the emergency is over, he will do well to say so plainly. But merely to say so will hardly be sufficient he is to return to the normal practices of the American Government, he will have to do what he has never had time or felt it opportune to do since he took office. He will have to expound clearly and with reasonable definiteness his general social philosophy. Why should it be necessary to speculate about

whether he is engaged in substituting some kind of planned collectivism for a free economy? Why should he not take the American people into his confidence and tell them,

what he believes? He also will have to say with some definiteness whether the legislative framework of the New Deal is now completed, whether he intends now to devote his main energies

to administration or whether there are other

not in vague phrases but in plain language,

large projects still to be put forward. If he is returning to the normal practice he will review the past and outline his course for the near future in some sort of comprehensive speech which the public can understand and judge. It is only in great crises that democratic leaders have a right to act quickly on sudden announcements of policy. This is the acid test; his willingness to give up the sudden announcing of great policies

and their summary execution. Once a deliberate procedure is restored once the mood and the method of personal leadership under crisis conditions is abandoned, there falls away automatically the only justification there is for the delegation of blanket powers by Congress and the signing of blank checks. They can be justifed only if there, is not time to legislate carefully. If there is time to be careful-and in absence of emergency there is timeblanket powers and blank checks are an abdication by Congress, a usurpation by the executive, and contrary not only to the letter but to the spirit of the Constitution.

What Mr. Roosevelt says or fails to say between the adjournment of Congress and its assembling in January will call for unusually careful scrutiny. For it will supply the evi dence on which the people may judge whether the President now will return to them the extraordinary powers they granted him in a moment of grave danger for the single pose of achieving recovery, or whether they must take these powers away from him

The people gave Mr. Roosevelt a sword to lead them in a particular battle. That battle is over, and that sword now should be returned to its scabbard. (Copyright, 1935.)

A LITTLE RHUBARB IN YOUR TEA? From the Philadelphia Inquirer.

N AZI leaders refuse to be the kind great scarcity of lemons (i. e., the kind AZI leaders refuse to be dismayed by the that grow on trees) in Germany.

With patriotic fervor, a pronunciamento pooh-poohs the fruit's rarity and offers a truly Nazi substitute. "We will have no need of lemons," it declares. "German rhubarb will take their place adequately."

It would take more than a Hitler decree however, to make a stalk of rhubarb take the place of a slice of lemon in a cup of tea -or a Tom Collins.

Lobbying and Law Practice

From the Louisville Courier-Journal.

C HAIRMAN BLACK of the Senate Utility Lobby Probe Committee says the committee wants to know "where legal practice ends and lobbying begins."

Perhaps that is a problem of professional thics with which bar associations will yet have to deal. Lawyers engaged in the criminal branch of the profession have received a great deal of unfavorable attention. Chairman Black quoted the Supreme Court on a "\$50,000 lobby," as he calls it, declaring that any attempt to deceive persons in connection with the high functions of legislation by secret compensations or to create or to bring into operation undue influence of any kind has all the injurious effects of a fraud

upon the public." The chairman, having uncovered \$1,500,000, anticipates disclosures of \$5,000,000 spent to defeat the holding company bill. Eminent political leaders were paid h.ge fees. So far as the investigation has proceeded into the source of 250,000 telegrams opposing the bill received by members of Congress, nearly all of them have been found spuriou and paid for by utility companies out of operating earnings.

The person who possesses a license to practice law has an advantage in lobbying over any other citizen or ordinary politician He receives a retainer fee as legal counsel, though the sole purpose of his employment be to "deceive in connection with the high function of legislation," and "bring into operation undue influence" on legislators.

President Roosevelt attacked the evil from he political angle when he purged the Democratic National Committee of lobbyists who had succeeded to the emoluments of Republican National Committeemen upon the change of administration. The bar may have to draw a line somewhere between legitimate practice and lobbying, preparatory purgation. Regular counsel, familiar with a business and the laws affecting it, is be ter equipped than any lobbyist to represent its legitimate interests before a legislative committee.

New Orleans also cent buying orders here, and there was local support attributed to covering on the reported prospects for an early loan announcement.

October and December were active and firm, with October selling up to 12.43c, or 12 points net higher, while May advanced to 11.12c, or 7 points above yesterday's closing quotation. There was a little foreign selling and hedging early, but offerings generally were small, with the market steady at net advances of 4 to 10 points at the end of the first hour.

Trading was quiet later in the morning. The weekly report of the Weather Bureau seemed to read about as expected and falled to create much trading interest in

By ARTHUR BRISBANE.

CLEVELAND, Aug. 21.

HIS is really a "cart before the horse" postscript to the article that follows. The part that follows about war was put on the wire in New York. This was televraphed from Cleveland three hours graphed from Cleveland three hours later, by the same writer, thanks to the airplane in which this is

written.

The pilot climbed up here, 11,000 feet, to look down on the clouds instead of flying through. You never saw more beautiful clouds. A snow-white rolling sea, with blue

East—or anything—except studying the great cloud castles. You could lose Niagara and the Delaware Water Gen in the country and ware Water Gap in the courtyard of a small cloud castle.

Mr. Knoop and his co-pilot Mr. Sommersmeyer, invite you to come out into the cockpit at the nose

of the ship and look ahead.

Fine sight, you are flying into a mile-high wall of pure white clouds. If it were a dream, and not a reality, you would look around for St.

Peter and try to remember your

good deeds.

Mr. Knoop says, "Now, when we go down to the Cleveland airport in a few minutes we shall not be able to see through these clouds, but we don't need to. We're on the but we don't need to. We're on the radio beam now, and just follow it down." You digest that, and then, behold, the earth is close and the assurance that you land at a gentle speed of 60 miles an hour—seems a little playful.

This is the most pleasing flight your narrator has taken since he first flew with Mr. Kingsbury of California Standard Oil over the Kettleman oil fields years ago.

The stewardess-hostess-trained nurse, who is here to take care of you has perfect teeth, very fine yellow-gray eyes, and a green dress. You cannot hold her job if you are more than 25 years old, more than ive feet four inches tall, or weigh ore than 120 pounds,

ice cream." But this is Cleveland-and all out to stretch your legs. That 60-mile an hour landing was very gentle.

Now read the rest, if you choose. It's about the earth—and hardly worth while.

Thus run the headlines: "Italy Bars All Peace Talk." "Britain Weighs Sanctions. Wants to Know Our Policy."

If she wants to know the policy of 90 out of 100 ordinary Americans, and 100 per cent of all common sense Americans, it would be To mind our own business; let

European nations alternately mur-dering each other and robbing in-ferior nations, attend to their busi-ness, in their way.

Our policy now, with Italy swal-lowing Ethiopia, should be exactly what it was when our British friends were busy swallowing the lands of the Boers, absorbing that country with its valuable gold and diamond mines. We did nothing then, why should we invent a spe-cial policy for Mussolini now? cial policy for Mussolini now? Men rarely pay attention to events before their time, but Mussolini, starting the subjugation of Ethiopia, might read in Gibbon's Decline and Fall of the Roman Empire," about an Ethiopian experience of the great Roman Emperor. This, properly, might be Musso-lini's comment: "No doubt Augus-tus, with his soldiers marching on foot, could not penetrate Ethiopian territory. Dear Mrs. Post: How soon may I go out since I am still in mourning for a husband I loved dearly? I really am miserable separating myself as I almost have for six months from the outside world, but don't want to display the soon of the love in the state of the love in the love in the state of the love in the love don't want to display improper feeling. And in the same breath it perhaps sounds shallow to ex-plain that I would like very much to let a once rejected beau come to see me and to take me out. If it is suitable for me to go out, must I wait to be seen with him until after I have discarded by mourning clothes?

Answer: Not one person has expected you to make yourself more miserable by staying away from the houses of your best friends and by not letting them come to yours, or even not to go to a movie with a friend or two if you would find any comfort in such diversion. But every decent person would rightly consider you lacking in the feeling that you say you have had for your husband, if you accepted the attentions of another man so very soon after your husband's death. EXPLANATION OF YESTERDAY'S CARTOON

THE DUKE'S STARVATION—Frederick August, ruling Duke of Anhalt-Zerbst (1734-1793), who was the brother of Empress Catherine II of Russia, was in Luxemburg when he learned of the execution of King Louis XVI of France on Jan. 21, 1793. He was so shocked at this blow to royal dignity that he immediately started on a complete fast of 43 days, which ended with his death from starvation in March, 1793. The Duke is famous as the man who sold 1160 of his soldiers to England for the purpose of fighting the American "rebels" in the Revolutionary War, THE ROVING HOUSE—Since 1891, L. F. Martin's home in Hollis, Okla, has been in four different counties, four townships, two states and one territory. During the years of development in Oklahoma and Northern Texas, all boundary lines were shifted and, Martin's homestead being peculiarly located, he scarcely knew from day to day where he was. Without moving, he has lived in Texas, Oklahoma Territory, Oklahoma State, in counties Greer, Unassigned, Greer and Harmon. The four townships were: Duke, Martin, Looney and Hollis.
